

ILLNESS FORM

Every year a number of students become ill because of exposure to other ill children. We have listed indicators to help you decide. If your child displays **any** of these symptoms, it is suggested that you keep your child at home.

- Fever over 100 degrees. A child should be **fever-free for 24 hours without medication before returning to school.**
- Green nasal discharge. **A child's nose should be completely clear for 24 hours.**
- Persistent cough
- Diarrhea. A child should be **completely free of diarrhea for 24 hours before returning.**
- Nausea, vomiting
- Pink eye or eye discharge
- A rash of unexplained origin
- If your child has been prescribed an antibiotic, they must be on it for 24 hours before returning to school.

Please Note:

Children will be sent home at the teacher's discretion if any of these symptoms are displayed. We understand that parents have to go to work, but our main concern is the best quality care for your child.

I have received and read the Illness Form. Please sign and return the bottom portion to the front desk.

Child's Name _____ Date _____

Parent's Signature _____
